- 4 Tools and processes

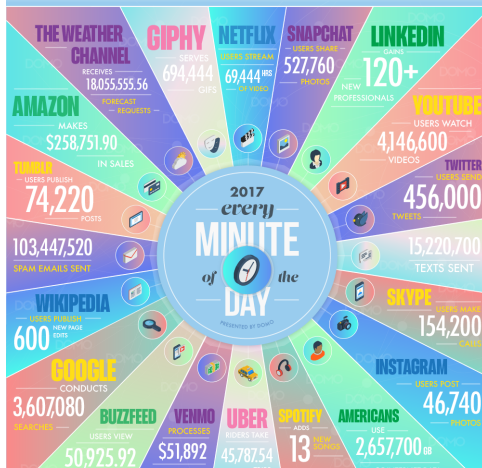

The ubiquity of data

DATA NEVER SLEEPS 5.0

How much data is generated *every minute*?

90% of all data today was created in the last two years—that's 2.5 quadrillion bytes of data per day. In our 5th edition of Data Never Sleeps, we bring you the latest stats on just how much data is being created in the digital sphere—and the numbers are staggering.

Opportunities in healthcare

Opportunities food industry

“We have the ability to not only look at a consumer as an individual and assess their buying patterns, but also look at the multiple consumers residing within a household, understand who is the dominant buyer, who reacts to our coupons, and, foremost, understand how they react to the channel that they’re coming to us on,” says Djuric.

Opportunities in retail industry

Opportunities for entrepreneurs

Challenges
